User friendly website aiming to solve common problems arising in electrical domain.

Why we?

01 Easy to use

Brownout has an intuitive user-friendly interface designed to make the process simple, easy to understand and quick access

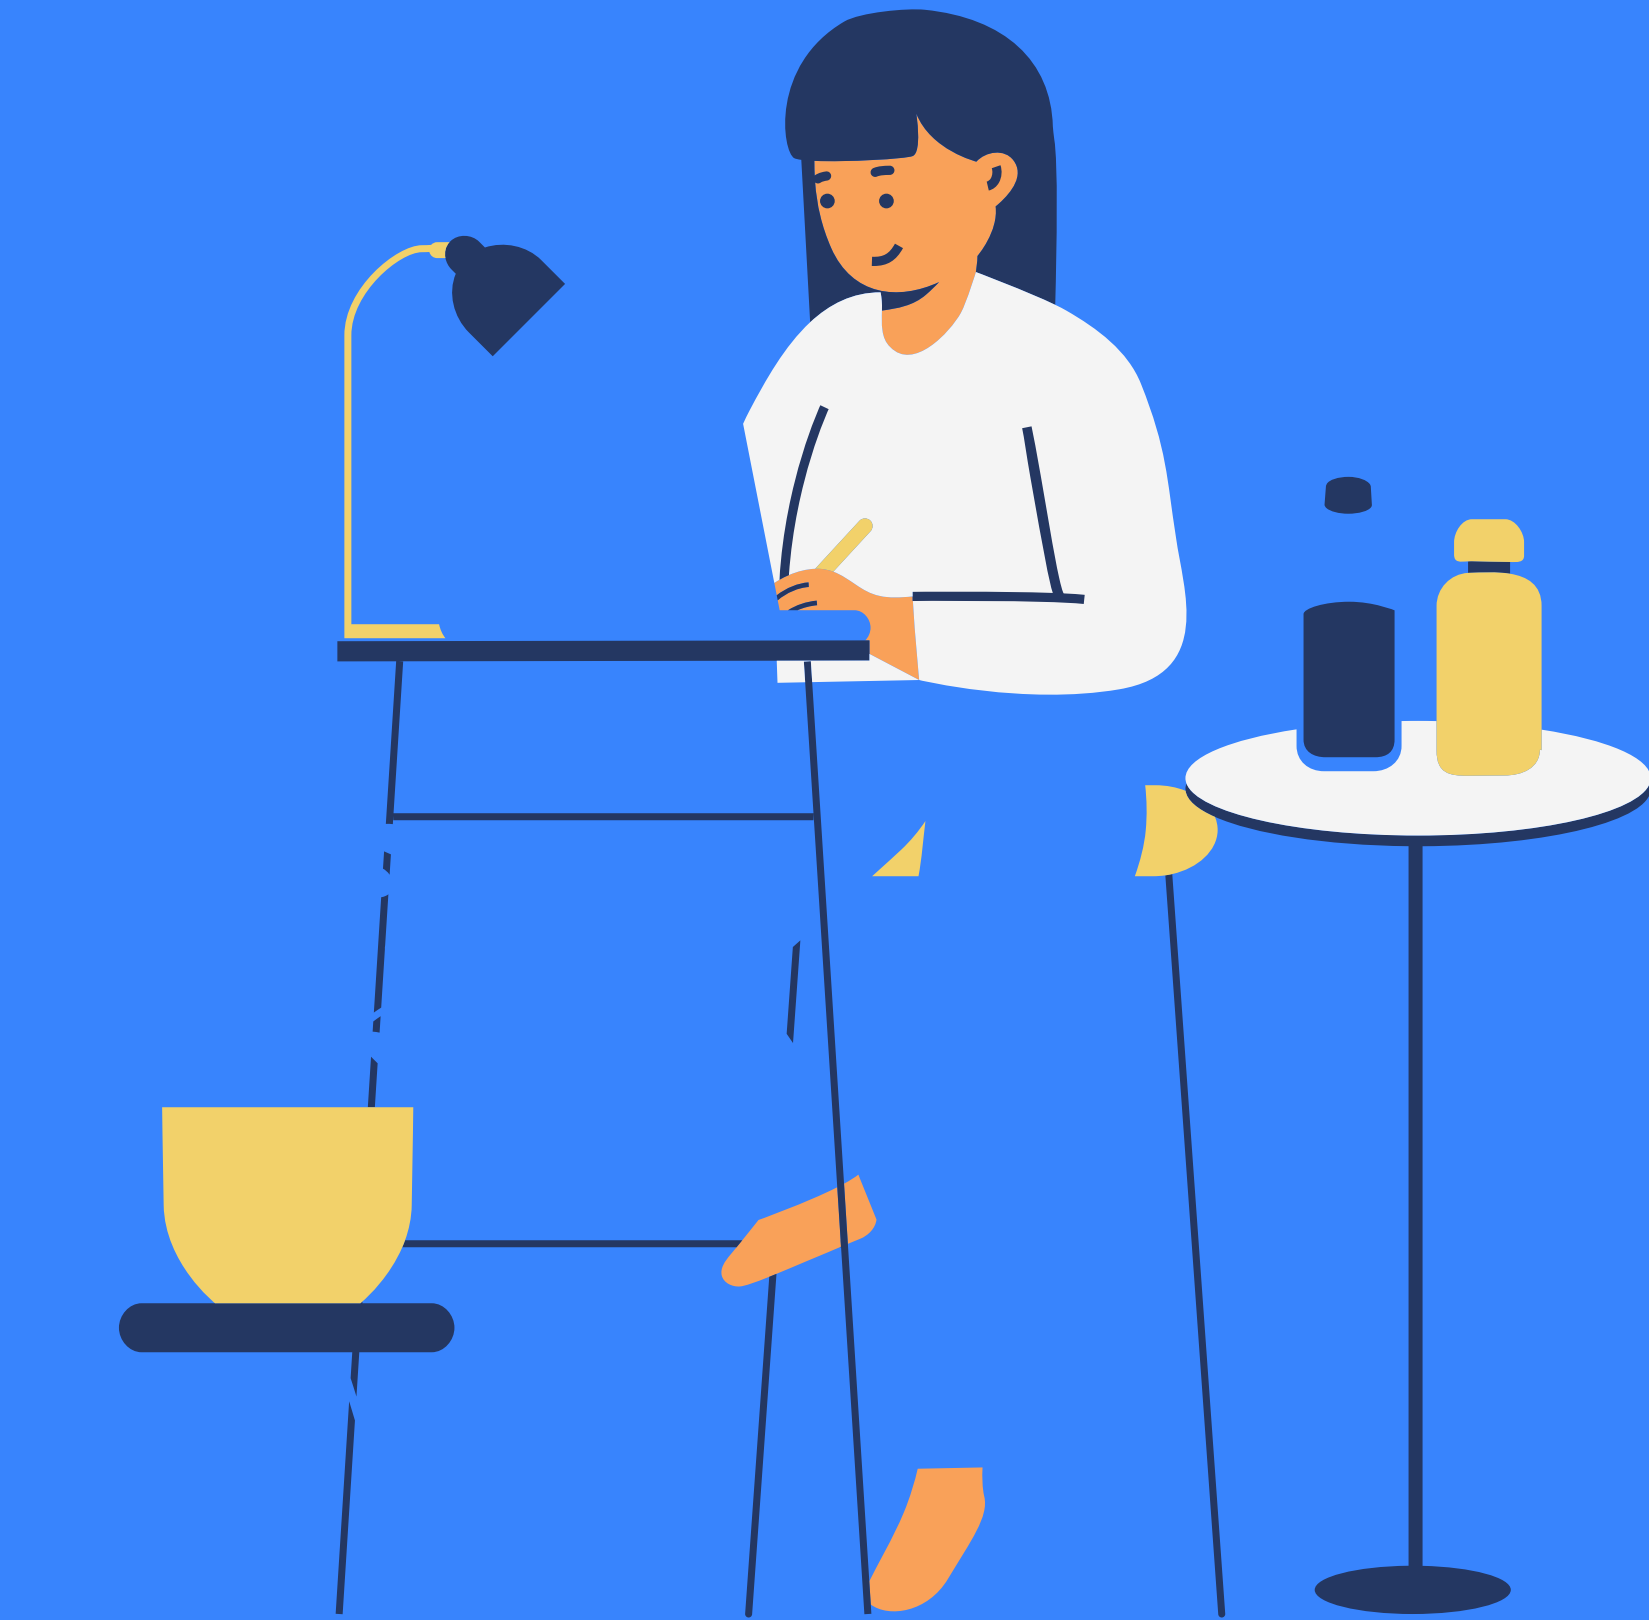

02 Secure and protected

Personal and financial data are not exposed during transactions or shared between the consumers, businesses and banks.

03 Accessible

Brownout can be used across multiple devices such as mobile gadgets and laptop computers.

What we
offer ?

01

Proper information provider

Brownout provides proper information related to power consumption using consumer id or mobile number.

02

Electricity bill payment

Brownout act as a platform to pay electricity bills.

03

Daily power consumption variations

Determining how much electricity is utilised on a daily basis, as well as displaying power consumption in a specific region as a function of seasonal fluctuations.

04

Short circuit alert

Alerts proactively notify you when issues are found with our appliances. We allow you to identify and address issues before you notice them.

Thank You
